

RELENTLESSLY DRIVEN TO ENHANCE PRODUCT PERFORMANCE

The Flexsys brand was born more than a quarter of a century ago, and has since set the standard for quality chemicals and solutions that make rubber products including tires safer, last longer, and perform better. Our highly skilled scientists and R&D teams are committed to enhancing product performance, delivering superior technical support and leading in industry innovation. It's all part of our relentless drive to help you succeed.

The largest manufacturer of tire-industry additives in the world

A long history of product quality

**8 manufacturing facilities
+ 2 technology centers**

Locations span 4 continents—maximizes support while minimizes supply chain risk

FLEXSYS > **Crystex™**

Insoluble Sulfur

Improve the elasticity and strength of rubber with the highest-quality, most consistent vulcanizing agent on the market.

FLEXSYS > **Santoflex™**

Antidegradants

Improve the longevity and integrity of rubber from the sole backward integrated Western supplier of antidegradants.

FLEXSYS > **Duralink™ HTS**

Post-Vulcanization Stabilizers

Enhance the durability of rubber with the largest global supplier of post vulcanization stabilizers.

The leading global producer of **vulcanizing agents**, **antidegradants** and **stabilizers**

RELENTLESSLY DRIVEN TO INNOVATE

We're driven to continually set the bar higher, and find new and better solutions.

Committed to keeping up with global trends and regulations

Focused on continual development and testing

A culture of R&D and innovation

Collaborative mindset; always eager to work with our clients on new ideas

RELENTLESSLY DRIVEN TOWARD SUSTAINABILITY

We prioritize environmental responsibility and are constantly seeking ways to improve sustainability and safety at our plants.

Global locations minimize fuel and carbon emissions

Production methods minimize waste and energy use

Focused on reducing our environmental footprint

Committed to solutions that extend the life span of your products
